

FIRE FIGHTING TECHNOLOGY – Includes courses on the Foundation of Firefighting/Emergency Medical Services, Firefighter I, Firefighter II, and Emergency Medical Technician with specialized classroom and practical learning experiences that are concerned with the practices and techniques of firefighting. Students are assessed based on their successful completion of a Firefighter Training Program. Additionally, students are assessed on CPR/Advanced First Aid, First Responder, Physical Agility, NIMS (National Incident Management System) certification and Hazardous Materials. All Fire Fighting Technology program completers are eligible to receive articulated college credits upon graduation.
